

ComicCraft – AI Comic Story Creator using Gemini Models

1. Brainstorming & Idea Prioritization

1. Project Idea Generation

During the brainstorming phase, different AI-based creative application ideas were considered. The ideas focused on using Generative AI to help users create personalized and engaging digital content.

- AI Story Generator
- AI Comic Story Creator
- AI Character Generator
- AI Cartoon Creator
- AI Digital Storybook Creator

2. Selected Project Idea

ComicCraft – AI Comic Story Creator using Gemini Models

ComicCraft is a web-based AI application that transforms a user's story idea into a complete comic. The user provides information such as the story prompt, main character name, setting, story tone, and preferred art style. The system generates a panel-by-panel storyline, narration, dialogues, and corresponding comic illustrations.

3. Why This Idea Was Selected

- It combines Generative AI with creative storytelling.
- Users can create comics from simple text prompts.
- The system generates both story content and visual illustrations.
- Users can customize the character, setting, tone, and art style.
- The generated comic can be viewed as a preview.
- The final comic can be exported as a PDF.

4. Idea Prioritization

Idea	AI Usage	Creativity	User Benefit	Feasibility	Priority
AI Story Generator	High	High	High	High	Medium
AI Comic Story Creator	High	High	High	High	Selected
AI Character Generator	High	High	Medium	Medium	Medium
AI Cartoon Creator	High	High	Medium	Medium	Low
AI Digital Storybook	High	High	High	Medium	Medium

5. Final Decision

The team finalized **ComicCraft – AI Comic Story Creator using Gemini Models** as the project idea.

The application provides an end-to-end workflow from user prompt → comic outline → narration/dialogue → illustrations → comic preview → PDF export.
