

# Empathy Map – ComicCraft

|               |                                                                                                              |
|---------------|--------------------------------------------------------------------------------------------------------------|
| <b>User</b>   | Students / aspiring comic creators                                                                           |
| <b>Says</b>   | "I have a story idea, but creating a complete comic is difficult."                                           |
| <b>Thinks</b> | "I need an easier and faster way to create characters, scenes, dialogues, and illustrations."                |
| <b>Does</b>   | Writes story ideas, plans characters and scenes, and tries to create comic panels.                           |
| <b>Feels</b>  | Creative but frustrated by the time and effort required for comic creation.                                  |
| <b>Pains</b>  | Lack of drawing skills, time-consuming illustration, difficulty maintaining character and scene consistency. |
| <b>Gains</b>  | Faster comic creation, AI-assisted storytelling, generated characters, dialogues, scenes, and illustrations. |
